

# SCHOOL CENSUS - 2003

## PRELIMINARY REPORT

MINISTRY OF HUMAN RESOURCE DEVELOPMENT,  
EDUCATION AND CULTURAL AFFAIRS  
SRI LANKA

Prepared by the Statistics Branch

## **Preface**

Annual school census has been carried out by the Statistics Branch of the Ministry of Human Resource Development, Education and Cultural Affairs for the past four decades. Accurate information is undoubtedly the tool of diagnosing past strengths and weaknesses and a basis for the development and quality improvement of the existing education system.

I would like to express my appreciation to the officers from the Provincial Departments of Education, Zonal Education Offices, Divisional Education Offices and Principals of all schools for their co-operation without which we would not have been able to carry out the census successfully.

This publication has been organized and prepared by the Statistics Branch of this Ministry. Publishing analytical provisional reports of this nature commenced in 1998 and this is the sixth in that series. I wish to thank them for their hard work in bringing out this publication.

I sincerely hope that this publication would be of immense use to policy designers, education planners, researchers and various other data users.

Note: Generally, the gender of students of the school is determined by the gender of students in grade 6-11 classes. Boys/Girls schools having students of the opposite sex in primary or advanced level classes are not considered as mixed schools. In Table 2, a school is considered as a mixed school if there is at least 1 student of the opposite sex.

➤ In 56 government schools, subjects are taught in English medium, either in grade 1,2,6,12 or 13.

Note : Both 2001 and 2002 censuses were carried out as at 1st June of the respective year but a drastic decline in student population is visible between these 2 years. The major reason for that difference is:

- In 2001, Grade 12 students were enrolled to advanced level classes in May and advanced level examination of that year was held in August and hence there were three batches of A/L students in schools at the time of the census.
- In 2002, grade 12 enrollment was done in May, and as the advanced level examination was held in April, there were only 2 A/L batches at the time of the school census.
